

Dear Doctors:

On behalf of the SUNY College of Optometry, I am pleased to invite you to the 8th annual *Envision New York*. Over the past seven years, the Envision program has emerged as one of the Northeast's premier optometric conferences and as the centerpiece of our continuing education calendar. *Envision New York* represents the SUNY College of Optometry's ongoing commitment to provide you with the highest quality professional education and to enhance the quality of care we deliver to our patients.

Mr. Matthew Platarote, Director of Continuing Professional Education, has developed another exceptional program for you this year featuring some of our finest faculty and clinicians, along with several prominent invited lecturers, including Dr. Kimberly Reed, Dr. Jane Ann Grogg, Dr. Jill Autry and Dr. Anthony Cavallerano. *The Envision New York* program enables optometrists from all over the northeast to acquire new knowledge and skills, to share ideas and experiences with colleagues and to reacquaint themselves with old friends.

We are changing the venue for our Saturday evening event this year, and will be hosting a reception for Envision attendees and their families at *Havana Central*, a local restaurant, from 5:00 – 7:00 pm. This will enable attendees to enjoy meeting with friends and colleagues while being able to venture into the city later in the evening. A number of our faculty will be joining in the festivities at *Havana Central*, as well, along with our new Vice-President and Dean for Academic Affairs, Dr. David Troilo.

I would like to especially thank all of our sponsors for their generous support of *Envision New York* and encourage you to visit with them in our exhibit hall.

As many of you know from years past, this program has been over subscribed, so I would encourage you to sign up early. We hope you will bring the entire family to New York and experience all the city has to offer.

I look forward to welcoming each of you to *Envision New York* and to sharing with you all that is new at the SUNY College of Optometry

David A. Heath, O.D., Ed.M.
President
