

# Applications, Acceptances and Enrolled (PhD)

This bar chart depicts applications, acceptances and enrolled students for the PhD program at SUNY College of Optometry throughout 2016 to 2025. Applications (blue) are highest each year, rising to a peak around 2018-2019 (about 23) before dropping to around 12 and then leveling off near 17 in later years. Acceptances (red) remain low (0-7), peaking early and generally declining afterward, with 2021-2022 at zero. Enrollments (yellow) are the lowest (0-5), with small fluctuations and in 2021-2022 at zero. Overall, applications decrease after an early peak and then stabilize, while acceptances and enrollments stay consistently low with slight variation.
