Delaying the Onset of Nearsightedness  
• — — — Until Treatment Study — — — •

We are recruiting children aged 6-11 years who are not yet nearsighted (do not yet need glasses to see far away) to participate in an eye drop study.

This study involves six visits over a two-year period. Enrolled children will use eye drops nightly. Compensation is provided for participation.

For more information call 212-938-4052
